

Erasing the "dangerous goods label"/ "Marking" indication from the exterior packaging of the mail item

If any of the following "dangerous goods label" / "Marking" is indicated on the exterior of the international mail you are dispatching, we cannot accept it as an international mail item (airmail/ surface mail) as it cannot be determined from the exterior whether dangerous goods are contained or not, even if the articles contained may not fall under the category of dangerous goods.

If the mail item has any of the following indication on its exterior, please erase the indication completely before dispatching the mail item.

List of dangerous goods labels/markings (Example)		
Explosives	Flammable gas	Non-flammable, non-toxic gas
		
Toxic gas	Flammable liquid	Flammable solid
		
Spontaneously combustible	Dangerous When Wet	Oxidizer
		
Organic peroxide	Toxic substance	Infectious substance
		
Radioactive material (Category No. 1, 2, 3)	Corrosive	Limited quantity of dangerous goods
		
Dangerous goods in excepted quantity	Lithium battery	Magnetized material
		
Cargo Aircraft Only	Cryogenic Liquid	Keep away from heat
		
UN number (UN no.) / UN mark	Environmentally Hazardous Substance Mark	* Based on the provisions of the Universal Postal Convention, you cannot send by airmail "Dangerous goods by air" as stipulated in the IATA Dangerous Goods Regulations, regardless of airmail (including SAL/EMS) or surface mail (excluding certain exceptions).
Indication of UN "OOOO"		
Biological substance*	Miscellaneous*	Radioactive material, excepted package
		
* Letters containing biological substance (Category B) For mail that contains biological substance (Category B) as stipulated in the terms and conditions of international mail, this label must be indicated on the exterior packaging of the mail item. When dispatching a mail item other than the above, please erase this indication before dispatching the mail item if it is displayed on the exterior of the package.	* Letters containing infectious substances If dry ice is included as coolant of biological substance (Category B) as stipulated in the terms and conditions of international mail, this label must be indicated on the exterior packaging of the mail item. When dispatching a mail item other than the above, please erase this indication before dispatching the mail item if it is displayed on the exterior of the package.	* Letters containing radioactive substance When dispatching letters containing radioactive substances as stipulated in the terms and conditions of international mail, this label must be indicated on the exterior package of the mail item. When dispatching a mail item other than the above, please erase this indication before dispatching the mail item if it is displayed on the exterior of the package.

Cannot be sent by international mail x

Mailing is possible under certain conditions Δ
